

INTRODUCING

HIREONIXAI

AI Infrastructure for University-to-Employer Hiring

Connecting universities, employers, and job seekers with objective AI-powered
evaluation and hiring infrastructure

The Problem

Hiring Is Broken Because Evaluation Is Fragmented and Low-Signal

42

Days to Fill a Role

\$15k

Cost Per Vacancy

\$ 240 B

Lost annually due to
Hiring Inefficiencies

Universities

- Placement outcomes impact rankings
- No objective measurement system
- Manual processes don't scale
- Employers distrust shortlisting

Employers

- 70%+ resumes are low-signal
- Interviews are slow and biased
- Cheating is rising
- No standardized comparison

Job Seekers

- Poor resumes and interview readiness
- No clarity on salary expectations
- No career direction guidance
- No structured 12-month plan

The root problem is not hiring volume - it's the lack of a standardized evaluation layer.

Solution: Hireonix Standardizes Hiring by Owning the Evaluation Layer

- A **unified AI-led** platform connecting universities, employers, and job seekers

Hireonix AI enables seamless evaluation and recommendations across the ecosystem

Alex AI (Our M.O.A.T)

Alex AI

Proprietary AI evaluation engine

"Alex AI recommends automatically. Humans decide."

Alex AI Is the Multi-Signal Evaluation Engine Behind Every Hiring Decision

Resume Screening

AI-powered parsing and evaluation of resumes across the platform

Role-Specific Assessments

Customized AI evaluations for technical and communication skills

AI Interviews

Conducted HR, technical, and communication interviews with detailed feedback

Multi-Signal Evaluation

Comprehensive scoring and ranking of candidates based on multiple factors

Explainable Recommendations

Clear rationale for candidate rankings and recommendations

Human-in-the-Loop

Complete audit logs with transparent human oversight

Product (UI)

One **evaluation system** used by universities, employers, and candidates.

University Dashboard

The University Dashboard is a comprehensive interface for managing student data and performance. It features a sidebar with navigation options: Dashboard, Student, Assessments, Ai Interviews, Skills & Competencies, Faculty & Classes, Groups, Community, Onboarding & Approvals, Report, and Settings. The main content area is divided into several sections:

- Dashboard Overview:** Includes filters for Course, Batch, Semester, Class, and Group, all set to 'All'.
- Student Metrics:** Displays key statistics with trend indicators:
 - Total Students: 1,240 (+2%)
 - Active Today: 312 (+5%)
 - Active this Week: 980 (-4%)
 - Attendance/Activity: 92% (+0.5%)
 - Avg. Time on the Platform: 3h 15m (+1h)
- Performance and Readiness:** Shows overall performance metrics:
 - Average Score: 82.5%
 - Skill Readiness: 78%
 - Placement Ready %: 65%
 - Top Performers: 234
- Assessment & AI Interview:** Tracks assessment progress:
 - Tests Created by Faculty: 48
 - Pending Reviews: 12
 - Assessment Completion %: 88%
 - AI Interviews: 115
- Courses Performance:** Displays course-wise performance distribution as horizontal bar charts:
 - Interior Designing: 62%
 - Product Designing: 89%
 - UX/UI Designing: 77%
 - Fashion Designing: 34%
 - Graphic Designing: 51%

AI Interview Score Card

The AI Interview Score Card provides a detailed assessment report for a candidate. It includes a 'Download PDF' button and the following information:

- Interview Report:** Candidate: Kunal Chawla, Position: Social Media Management Intern, Company: Hireonix AI, Interview Rounds: 2.
- Overall Interview Performance:** 57% (Consolidated score across 2 round(s)).
- Interview Rounds:** Round 1 (64% Weighted, 12/4/2025) with Evaluation Criteria: Analytical Skills & Performance Monitoring (Weight: 3, 100%).

Job Seeker Dashboard

The Job Seeker Dashboard offers tools to build and optimize a job application. It is organized into four main sections:

- BUILD:** Resume Builder, Portfolio Website Builder, and Cover Letter Generator.
- OPTIMIZE:** ATS Resume Checker and LinkedIn Profile Optimizer.
- PRACTICE:** AI Interviewer, Coding Tests, and Practice Assessments.

Candidate Ranking

The Candidate Ranking interface allows employers to manage and evaluate potential hires. It includes tabs for Candidates, Tests, Interviews, Offers, and Verification. Key features include:

- Invite external candidates to apply for this position** (Invite Candidates button).
- 18 Recommended Candidates** (Expandable list).
- Filters:** ATS Score, Test Score, Interview Score (All).
- Table:** Lists candidates with columns for Select, Rank, Name, Status, ATS Score, Test Score, Security, Interview Score, and Actions.

Select	Rank	Name	Status	ATS Score	Test Score	Security	Interview Score	Actions
☐	1	Rohit Kumar rk142003mark@gmail.com	Applied	36%	No tests	N/A	75% Draft	🔍 🗑️ ✖️
☐	2	Bhaskar Shukla bhaskarshukla440@gmail.com	Applied	36%	No tests	N/A	53%	🔍 🗑️ ✖️
☐	3	Rohit Agarwal rohitag2004@gmail.com	Applied	36%	No tests	N/A	50%	🔍 🗑️ ✖️

Jobs on Platform

The Jobs on Platform section features a job listing for a 'UI/UX Junior Intern' position. It includes the company logo, the job title, and a brief description: 'Join our team and make a difference'. Below the description are buttons for 'Apply for this job', 'View Company', and a 'Share' link.

Traction

Early Traction Confirms Demand Across Universities, Employers, and Job Seekers

5,000+

Job Seekers

Onboarded and actively using platform

66

Employers

Actively using platform for hiring

Job Seekers MoM Growth

We are growing in terms of Job seekers by 120% MoM

Employers MoM Growth

We are growing in terms of Employers by 110% MoM

At our current 120% MoM growth trajectory, we are on track to hit our Year 2026 goal of **25,000 users**, representing a **\$380K MRR** potential.

Market Size

India Is the Initial Wedge Into a Multi-Billion-Dollar Evaluation Market

Global TAM (10-15 Year View)

\$ 38B

Total global spend on hiring evaluation and employability infrastructure

- ✓ Universities → ~\$4B
- ✓ Employers (SMB → Enterprise) → ~\$5B
- ✓ Job Seekers (Freshers + Professionals) → ~\$27B

India SAM (5 Year Execution)

\$ 1-1.5 B

High-density hiring market with fastest path to scale and data advantage

- ✓ 5,000 institutions × \$120K avg ACV = \$600M gross opportunity
- ✓ 30,000 companies × \$4K avg ARR = \$120M
- ✓ 14M users × 15% paid × \$15/month ARPU = \$378M

SOM

\$ 150-160 M (ARR)

Evaluation spend recurs every hiring cycle — unlike marketplaces or job boards

Business Model

Multi-segment revenue model delivering high margins through diverse customer segments

Universities

\$120K–\$240K

Per-student, per-semester

- ✓ AI-based student readiness scoring
- ✓ Aptitude & communication assessments
- ✓ Employer-aligned skill mapping

Startups

\$500–\$1.8K

Annual subscription

- ✓ Job posting & ATS
- ✓ Platform-wide candidate pool
- ✓ AI-recommended candidates

Mid-Market

\$7.5K–\$18K

Annual subscription

- ✓ Everything in Startups
- ✓ AI interviews & assessments
- ✓ Messaging & interview scheduling

Enterprise

\$25K–\$60K

Usage-based pricing

- ✓ Everything in Mid-Market
- ✓ Internal + External Hiring Platform

Job Seeker

\$2–\$500

Tokenized Usage-based pricing

- ✓ Resume + Cover – letter + Portfolio Builder
- ✓ AI Interviewer + Practice Assessments (Coding, HR, Case study, Technical, English) + English Communication Training
- ✓ Industry Expert Mentorships and Courses

Competitive Landscape

HIREONIX AI uniquely operates at the evaluation and decision layer, combining hiring, assessments, and university focus.

Platform	Hiring	Assessments	AI Interviews	University Focus	Job Seeker Tools
Linked In	✓ Partial	✗ No	✗ No	✗ No	✗ No
Greenhouse	✓ Partial	✗ No	✗ No	✗ No	✗ No
Workday	✓ Partial	✗ No	✗ No	✗ No	✗ No
Naukri	✓ Partial	✗ No	✗ No	✗ No	✗ No
Hireonix AI	✓ Yes	✓ Yes	✓ Yes	✓ Yes	✓ Yes

 Evaluation Layer

Operating where decisions are made, not just around hiring.

 University Integration

Native integration with academic systems and credentials.

 AI Consistency

Standardized, bias-reduced candidate evaluation.

Why Hireonix Wins

Hireonix wins by owning the evaluation layer where hiring decisions are made.

Evaluation Layer Control

Owns the evaluation + recommendation layer, giving us control over the hiring decision process.

Human-in-the-Loop Design

Built-in human oversight enables enterprise adoption while minimizing regulatory and trust risk.

Predictable University Revenue

Outcome-linked, multi-year university contracts deliver high-ACV, low-churn revenue.

Compounding Data Advantage

Each evaluated candidate improves the model and benchmarks competitors cannot access.

Infrastructure-Level Margins

Usage-based AI workflows scale to 70–80% gross margins without proportional cost growth.

Go-To-Market

Universities Anchor Distribution, Employers Monetize Demand, Users Compound Data

Each **university** adds structured supply, each **employer** adds demand, and each **job seeker** improves the evaluation model - reducing CAC over time.

Roadmap (2 Years)

Team

Experienced leadership combining enterprise systems, AI/ML expertise, and strategic marketing from top-tier companies and institutions.

Kunal Chawla

CEO

-  Software Engineer, Volvo Cars (Sweden)
-  Enterprise systems & global execution

Tushar Sharma

CTO

-  Data Scientist, Western Digital
-  AI systems, ML pipelines, data architecture

Rahul Sharma

CMO

-  MBA, IIM Ahmedabad
-  Former Marketing Lead, Apps for Bharat

Financial Outlook (Directional)

Projected growth trajectory with strong margins and operating leverage

**University Growth**

10 → 100 → 400 contractsuniversities in 3 years

**B2B Employers**

100 → 1,600 companies

**B2C Users**

25K → 500K users

Pre-Revenue / Pre-Seed

Strategic Allocation

Product & AI Development 25%

Building out Alex AI engine, platform features, and evaluation algorithms.

Sales & Marketing 40%

University partnerships, employer marketing, and brand development.

University Partnerships 15%

Onboarding teams, training staff, and developing institutional relationships.

Legal, Compliance & Infrastructure 20%

Scaling operations, legal compliance, and cloud infrastructure.

We're raising our Pre-seed. Let's Talk...

Hireonix AI is not a hiring marketplace. It is **infrastructure** — built where:

Universities Drive Scale

Partner with us to transform placement outcomes into measurable, scalable achievements.

Employers Drive Revenue

Access pre-vetted talent through our AI-powered platform with transparent evaluation.

AI Drives Defensibility

Our proprietary AI creates real switching costs through continuous data accumulation.
